DICTIONARY of JEHOVAH'S WITNESSES

(Latest update 2024)

Introduction

The religious movement now known as "Jehovah's Witnesses" (JWs) has grown rapidly.

In the 1880s about 300 members publicly distributed tracts or sold books. In the 1930s more than 30,000 went house to house; in 1960 about 1,000,000; in 2000 about 6,000,000; and since 2014 over 8,000,000. The meeting attendance has risen even faster and the sect is a major social phenomenon.

The *Dictionary of Jehovah's Witnesses* is for people, including JWs themselves, who want to know about this religion, because:

All of them should be well informed about the history of the organization with which they are associated. (The Watchtower 1994 May 1, page16)

The *Dictionary* covers history, people, terminology, doctrines, prophecies, publications, achievements, statistics, real-estate, and more. The aim is to consider everything likely to be inquired about.

For example to find out whether the Jehovah's Witnesses leaders want their doctrines or themselves to be accepted as infallible, go to the entry *INFALLIBLE*. There you'll discover that the leaders claim God interprets the Bible for them and gives them the interpretation. You'll get quotes such as:

The Watchtower is not the instrument of any man or set of men, nor is it published according to the whims of men. No man's opinion is expressed in *The Watchtower*. (The Watchtower 1931 2/1 237)

Jehovah God is therefore the only Supreme Court of interpretation of His inspired word... He merely uses the "servant" class to publish the interpretation after the Supreme Court by Christ Jesus reveals it. (The Watchtower 1943 7/1 202-203)

Consider, too, the fact that Jehovah's organization alone, in all the earth, is directed by God's holy spirit or active force. (Zech. 4:6) Only this organization functions for Jehovah's purpose and to his praise. To it alone God's Sacred Word, the Bible, is not a sealed book...

(The Watchtower 1973 7/1 402)

Although the leaders do not label themselves or their doctrines "infallible" and sometimes deny it, quotes like these suggest the opposite — that JWs have to regard, and respond to, their Governing Body as infallible.

The Watchtower Bible and Tract Society (the legal and publishing channel of the religion) has published hundreds of books and booklets, thousands of issues of their magazines, and hundreds of tracts and pamphlets. Books, booklets and magazine articles about Jehovah's Witnesses written by non-members number tens of thousands.

The sheer amount of information, much of it colored by polemics, makes an accurate overall overview difficult to achieve.

The leaders invite people to "review the record" (The Watchtower 1972 4/1 197) but supply superficial summaries that omit important details and important themes.

If, however, the "record" is split into many topics and arranged alphabetically, then everything can be reviewed in small chunks.

This *Dictionary* will help people to do more carefully what the leaders want everyone to do, which is to "review the record".

The abbreviation "WBTS" is used of the specific corporation considered the most important corporation. "WTS" is a collective term for multiple corporations or all of them. The term "Organization" includes all the corporations plus "bethel homes", branch offices, printeries, farms, assembly halls, kingdom halls and congregations, and the rules and personnel that keep it all functioning.

WTS books and booklets quoted in this *Dictionary* are indicated by their name (or abbreviation) and date of publication followed by the page. For example: (Government 1928, 271)

References to *The Watchtower* are indicated by "w", and to *Awake!*, *Consolation* and *The Golden Age* by "g", followed by the year, month, day of month, and page(s).

For example: w1943 7/1 202 is The Watchtower 1943 July 1 page 202.

References to *Reprints of The Original Watchtower* (1879 to 1916) are indicated by "wr" which stands for "Watchtower Reprints".

Non-WTS references are either given in the text, or indicated by the author's name and date of publication, for example (Beckford 1974), and given in full under "References".

References to websites are usually given in the dictionary entry that refers to them and repeated in the Index.

Dictionary entries starting with the definite or indefinite article, "The" or "A", are entered alphabetically according to the next word in the name. For example the book *The Finished Mystery* (1917) is discussed in the "F" entries as "Finished Mystery, The (1917)".

Words that refer to major features of the JWs Organization have the first letter capitalized — e.g. "Organization", "Society", "Bethel". But "congregation" and "branch office" are lower-case except when a specific congregation is named. Hierarchical positions, "president", "officer", "director", "elder", "servant", "pioneer", "committee", etc, are lower case except "Governing Body".

THE MEANING OF "RATIO"

The *Dictionary* includes approximately 200 statistical tables of the number of JWs in individual countries such as the following:

SPAIN

Publishers and memorial attendance in Spain and their ratio to Spain's population:

| | Peak | Ratio | Memorial | Ratio |
|------|---------|-------|----------|-------|
| | | l to | | l to |
| 1975 | 30,800 | 1109 | | |
| 1980 | 43,300 | 831 | 97,800 | 368 |
| 1985 | 61,100 | 632 | 134,600 | 289 |
| 1990 | 84,600 | 465 | 164,600 | 239 |
| 1995 | 100,900 | 388 | 167,900 | 233 |
| 2000 | 101,200 | 394 | 159,300 | 250 |
| 2005 | 104,200 | 422 | 176,700 | 249 |
| 2010 | 112,800 | 416 | 196,200 | 239 |
| 2015 | 111,400 | 417 | 190,200 | 244 |
| 2018 | 114,500 | 405 | 189,400 | 245 |
| | Ave. | | | |
| 2019 | 115,100 | 406 | 192,300 | 243 |
| 2020 | 116,600 | 401 | 206,400 | 226 |
| 2021 | 119,900 | 393 | 217,480 | 215 |
| 2022 | 120,000 | 389 | 198,200 | 236 |
| 2023 | 121,400 | 397 | 201,800 | 239 |

"Ratio" compares the number of JWs in each country with that country's total population. In 2023 there was one JW publisher in Spain for every 397 people, and one Memorial attendant for every 239 people.

Numbers in these tables bigger than 30,000 are usually rounded out to the nearest 100; and numbers bigger than 500,000 to the nearest 1000. But ratio calculations are based on the exact numbers.

Until 2018 the WBTS supplied publishers-to-population ratios calculated from each year's peak number of publishers; but from 2019 the publishers ratios are based on the average number of publishers.

The WTS's tables include each country's population, which this Dictionary omits. To calculate approximately the population figure, multiply the number of publishers by the ratio, or the Memorial attendance by the ratio.
